

# ORINORO GORGE

- ▶ An exciting hiking destination in Mustinmäki, on the island of Soisalo
- ▶ Hike along a nature path of the vertical-walled gorge, carved by the ice age
- ▶ Take a relaxing break at the lean-to looking over the beautiful pond, put on a campfire with always available firewood and grill for example sausages.
- ▶ Orinoro's gorge is about 200 m long and 20 m deep
- ▶ At the bottom of the gorge, there is a natural spring. Snow and ice remain there until the summer
- ▶ According to the Finnish Geology Research Center, the Orinoro Gorge is listed as one of the most valuable geological sites

## Location

In the village of Mustinmäki, 16 km from the Leppävirta centre. The nature trail starts from the Mustinmäki talo (Mustinmäki community house) or at the Hanhiahontie road parking lot.

## Recommended outfit

Rubber boots and long trousers, sneakers will work during dry season. There are no safety railings at the top of the gorge. The boulders at the bottom of the gorge make the terrain difficult for walking.
